REFUSAL OF ORDERS FOR PENNY STOCK:

A stock that trades at a relatively low market price with low market capitalisation, these stocks are generally considered to be highly speculative and risky because of their lack of liquidity, large bid-ask spreads, small capitalisation and limited disclosures. We do not restrict client for trading in the penny stock (carries high risk), if the same is permissible by the exchange and our risk management and surveillance (RMS) policy. In this regard we ensure that the brokerage charged on the transaction involving penny stock shall not exceed the prescribed maximum limit as per exchange norms. We also ensure that same shall not be construed as an arrangement in any form so as to inflate, depress or cause fluctuation in the price/volume of the penny stock so as to hurt the true sentiments of the market.

SETTING UP OF CLIENTS EXPOSURE LIMIT:

ASSL will normally give exposure at a predetermined multiple for the net credit balance lying in the client's ledger (across all opted segments) or on the unencumbered securities after taking into account the same to be sufficient to meet the upfront margin requirement in terms of the margin collection mechanism as specified by the Regulator and Exchanges from time to time. Exposure on securities is given after appropriate haircut as per exchange. ASSL may from time to time impose and vary limits on the orders that the client can place through its trading system (including exposure limits, turnover limits, limits as to the number, value in respect of which orders can be placed etc.). The client is aware and agrees that ASSL may need to vary or reduce the limits or impose new limits urgently on the basis of its risk perception and other factors considered relevant by it including but not limited to limits on account of exchange / SEBI directions etc.

APPLICABLE BROKERAGE RATE:

THE RIGHT TO SELL CLIENT'S SECURITIES OR CLOSE CLIENTS POSITIONS, WITHOUT GIVING NOTICE TO THE CLIENT, ON ACCOUNT OF NON PAYMENT OF CLIENT'S DUES:

As the SEBI Circular - CIR/HO/MIRSD/DOP/CIR/P/2019/75 dated June 20, 2019 mandates liquidation of securities in Capital Market Segment in case of non-payment within 5 trading days from the pay-out wherein no pre-order confirmation is required. However, as a best practice, we will issue margin call and reminder to client for making payments within 5 trading days. The client shall ensure timely availability of funds for meeting his/her/its payin obligation. ASSL shall not be responsible for any claim/loss/damage arising out of non availability of funds by the client for meeting the pay in obligation of either funds or securities.

ASSL has the right but not the obligation, to cancel all pending orders and to close/liquidate all open positions in equity derivatives and commodities at the pre-defined square off time or when Mark to Market loss (MTM) reaches the desired % or margin available with ASSL is not sufficient to cover the risk or the client have not taken any steps either to replenish the margin or reduce the Mark to Market loss. In the event of such square off, the client agrees to bear all the losses based on actual executed prices. In case open position (ie. short /long) gets converted into delivery due to non square off because of any reason whatsoever, the client agrees to provide funds to fulfill the payin obligation failing which the client will have to face auctions or internal close outs, in addition to this, the client will have to pay penalties and charges levied by the exchanges in actual and losses.

 _____

Notwithstanding anything to the contrary in the agreement or elsewhere, if the client fails to maintain or provide the required margin/fund/security or to meet the funds/margins pay in obligations for the orders/trades/deals of the client within the prescribed time and form, the ASSL shall have the right without any further notice or communication to the client to take any one or more of the following steps:

5. To take any other steps which in the given circumstances, ASSL may deem fit.

SHORTAGE IN OBLIGATIONS ARISING OUT OF INTERNAL NETTING OF TRADES:

If there are shortages due to internal netting of client's position, the same would be squared off with the highest of the given prices:- (provided that the same shall not exceed the highest price prevailing in the Exchange from the first day of the relevant trading period till the day of closing out or 20% above the official closing price on the auction day whichever is higher)

1. Percentage on closing rate of auction date
 - a) Upto 100.99/- (scrip rate) x 7.5%

The commodities delivered short are purchase from the market and the purchase consideration (including all statutory charges and levies) along with a penalty is debited to the short delivery seller client.

CONDITIONS UNDER WHICH A CLIENT MAY NOT BE ALLOWED TO TAKE FURTHER POSITION:

The same holds good when (1) ledger reflects continuous debit balance (2) inadequacy of margin (3) any other outstanding dues (4) Further position in the given scrip is prohibited by the Exchange.

The client is not entitled to trade without adequate margin / security and that it shall be his/her/its responsibility to ascertain beforehand the margin / security requirements for his/her/its orders/trades/deals and to ensure that the required margin / security is made available in such form and manner as may be required by ASSL. The client further agrees that he/she/it shall be responsible for all orders (including any orders that may be executed without the required margin in the client's account) & / or any claim / loss / damage arising out of the non-availability / shortage of margin / security required by the broker & / or exchange & / or quantum & or percentage of the margin & / or security required to be deposited / made available from time to time. The margin/security deposited by the client with ASSL is not eligible for any interest.

CLIENT TRADING ACCOUNT CLOSURE :

Clients can request trading account closure online or offline without stating reasons, subject to SEBI and Stock Exchange compliance. Online closure can be done through secure web portal/app with two-factor authentication or registered email ID. Request through SMS or messaging apps are not accepted. On receipt, ASSL will send confirmation to client's registered email/mobile and block further trades immediately. Any closure request requires zero debit balance (across exchanges), no open positions, and no pending arbitrations blocking funds/securities. If issues exist, the client will be notified in writing to settle before proceeding. Valid requests will be processed within 3 working days which includes return funds, release collateral/pledged securities, and close account. ASSL will notify client of the closure, update UCC database as inactive/deleted, and stop client-level collateral reporting. The reasons for any rejection to be stated and informed to client. Maintenance of logs for internal audit purposes and adherence to all timelines as prescribed under the Exchange circular shall be ensured. Any rights or liabilities arising from prior trades shall remain binding on the parties and their successors even after closure of the account.

 _____

CLIENT DEREGISTRATION:

Deregistration applies in cases of client inactivity, regulatory violations, unpaid dues, or mutual termination.

ASSL may deregister clients under these circumstances:

- Client request for account closure (as per prior policy).
- Prolonged inactivity (e.g., no trades for 24 months).
- Non-payment of dues, debit balances, or failure to settle obligations.
- Suspected illegal activities, market manipulation, or regulatory bans (e.g., SEBI debarment).
- Client indicted for fraud, money laundering, or securities violations.

Notify client in writing via registered email, stating reasons. Reminders will be issued in case of inactivity. Transfer funds/securities to client demat (within 7 days). Update client status as "Inactive/Deleted" in UCC database and internal systems. Inform client and exchanges, cease reporting in collateral segregation. Deregistration does not waive prior liabilities from transactions, which remain binding on parties/successors.

INACTIVE /DORMANT ACCOUNT POLICY :

Client trading codes are classified as Inactive/Dormant in the Unique Client Code (UCC) database when there is no client-initiated activity across any exchange or segment for a continuous period of 24 months. This includes absence of trades, participation in Offer for Sale (OFS), buy-back offers, open offers, non trading transactions such as successful IPO or Mutual Fund subscriptions or depository participants (DP) operations or any KYC updates such as changes to email, mobile number, or address and the same has been uploaded to KRA to ensure validated /registered status.

For clients seeking reactivation after being flagged as Inactive/Dormant for 24 months or more:

- A formal reactivation application must be obtained.
- Updated KYC details are required, including fresh due diligence.
- In-Person Verification (IPV), either physical or through Video In-person Verification, must be conducted as per exchange mandates.

While reactivating the client, ASSL shall also verify the client status as per KRA. In case the client's status as per KRA is not validated / not registered (i.e. "On hold"/"Rejected"/"Registered" through other intermediary, etc.) then ASSL shall not re-activate the client's trading account. In this case, the client is required to provide the latest KYC details like Address, Mobile number, Email ID, Bank/DP account, income, etc. along with the necessary supporting documents as required by KRA. Post submission of required details along with documents by the client, ASSL shall validate these details with the documents provided and shall update its records accordingly. Before re-activating the client's trading account, ASSL shall update/upload the required details/documents on KRA to ensure that the client's status is validated/registered with KRA. ASSL shall also update such client details in the UCC records of the respective exchanges. Upon reactivation, the computation of next 24 months for the purpose of identifying client as inactive in the subsequent period shall be considered from the date of last re-activation of trading account.

- Individual Clients may submit an "online reactivation request" using the REKYC option available on the ASSL website.
- This streamlined process allows for quicker processing while ensuring regulatory compliance.

VOLUNTARY FREEZING/BLOCKING OF ONLINE TRADING ACCOUNTS:

Clients of ASSL may voluntarily request freezing or blocking of their online trading accounts using the following secure channels during market hours :

1. **Email:** Send a request to stoptrade@ashikagroup.com from the client's registered email ID with ASSL. Only emails from registered IDs will be processed.
2. **Phone:** Call 033-40102590 or 033-40102525 during market hours. Requests must originate from the client's registered mobile/landline number. The agent will authenticate the client by verifying identity details and, if needed, additional information (e.g., PAN, trading code, recent transactions).

Upon successful verification:

- An acknowledgment will be issued immediately via email/SMS.

- The trading account will be frozen/blocked, and all pending orders cancelled.

Request Timing

- After trading hours or within 15 minutes before market open

Action Timeline

- Before the start of the next trading session

Post-Freezing Communication

Unfreezing/Re-Enabling Access : To re-enable online trading access:

- Clients must submit a formal unfreezing request following the same procedure (email or phone).
- ASSL will conduct necessary due diligence, including identity verification and risk assessment.
- Access will be restored only after satisfactory verification.
- In cases of adverse findings (e.g., compliance issues or suspicious activity), ASSL's decision to deny or delay restoration shall be final and binding, always in the client's best interest.

HANDLING OF GOOD TILL TRIGGERED (GTT) ORDERS OF CLIENT:

Good till Triggered ('GTT') is the trigger-based order placement feature which allows a client to place buy or sell orders in stocks/ Contracts of his choice at their specified price. These orders will remain active until the trigger condition is met or the GTT request is cancelled/ expired. The maximum validity date for which the GTT trigger will be valid is 365 days, after which it will get expired. The client can set a trigger price and a limit price for a GTT request. When the last traded price (LTP) breaches the specified trigger price, limit order will be placed with the exchange at the specified quantity and limit price. The GTT request placed will be in GTT Order Book and limit order will be sent to exchange only when the trigger condition is met. A client can place Stop loss and Target order simultaneously against a stock. When either side of the order is triggered, the other side is automatically cancelled by the system.

The limit of 'maximum number of GTT orders at any point of time', can be revised by Ashika at its sole discretion after duly communicating to the clients.

1. GTT order will be automatically cancelled after 365 days from placing such order in case it is not triggered as per the Trigger Conditions.
2. In case there is change in exchange security series, market lot or any corporate action, such as; splits, bonuses, dividends of extraordinary nature (above 5% of market price), merger, reverse mergers, amalgamations, takeover, delisting, rights issue, etc. where there is significant impact/change in the stock price, the GTT order will be cancelled.
3. Ashika may also at its sole discretion decide to withdraw any particular stocks/ contracts for GTT facility without assigning any reasons whatsoever leading to cancellation of pending GTT orders.

ELECTRONIC GOLD RECEIPT (EGR) - RISK DISCLOSURE DOCUMENT (RDD)

1. **Product Nature Risk:** Electronic Gold Receipts (EGRs) are digital certificates that signify ownership of physical gold held by approved vault managers. The value of EGRs is directly linked to the market price of the underlying gold, which may be subject to significant fluctuations, thereby exposing investors to potential gains or losses.
2. **Price / Market Risk:** The price of gold is influenced by various domestic and global factors including interest rates, currency movements, inflation, economic conditions, and geopolitical developments. These factors may cause volatility in gold prices, and as a result, there is no assurance of returns, and the value of investments may decline.
3. **Liquidity Risk:** The EGR segment may have relatively lower trading volumes compared to traditional market segments. This may impact the ease with which investors can buy or sell EGRs and may also affect the ability to realize a fair market price at the desired time.
4. **Delivery / Conversion Risk:** EGR holders may have the option to convert their holdings into physical gold subject to prevailing exchange norms and conditions. Such conversion may involve certain risks, including logistical constraints, minimum lot size requirements prescribed by the exchange, and additional charges related to processing, delivery, and handling.
5. **Vaulting & Storage Risk:** The physical gold underlying the EGR is stored with SEBI-regulated vault managers. While such vault managers operate within a regulated framework, there may still be operational risks relating to storage, handling, safety, or logistics. Additionally, storage and vaulting charges may apply, which could impact the overall return on investment.
6. **Regulatory Risk:** The EGR framework is governed by SEBI and respective stock exchanges and is subject to regulatory oversight. Any changes in applicable rules, introduction of new compliance requirements, or regulatory restrictions on trading or holding of EGRs may impact investors.
7. **Settlement Risk:** Settlement of EGR transactions is carried out through exchange clearing corporations and depository systems. Any technical, operational, or system-related issues in these mechanisms may lead to delays or disruptions in settlement timelines.
8. **Charges & Cost Impact:** Investors in EGRs may incur various costs, including brokerage charges, exchange transaction charges, depository charges, and vaulting or storage fees. These cumulative costs may reduce the effective returns on investment.
9. **Suitability Risk:** EGR investments may not be suitable for all investors. Investors are advised to carefully consider their investment objectives, risk appetite, investment horizon, and understanding of the bullion market before participating in EGR trading.
10. **No Guaranteed Returns:** Investing or trading in EGR does not provide any assurance of fixed returns or capital protection. Returns are entirely market-driven and subject to inherent risks associated with gold price movements.
11. **Client Acknowledgement:** I/We hereby confirm that I/We have read and understood the above Risk Disclosure Document for EGR and am/are aware of the risks involved in trading or investing in Electronic Gold Receipts. I/We agree to bear all risks, losses, and consequences arising out of transactions in EGR.

- **The Background**

The Prevention of Money-Laundering Act, 2002 (as amended) was notified on July 1, 2005. Subsequent to this, the Securities and Exchange Board of India (SEBI) has, on 18th January 2006, required market intermediaries to adopt a policy framework with respect to anti-money laundering measures to be followed by the intermediaries. Ashika Stock Services Limited (ASSL) is inter alia, a stock broker and a depository participant needs to adhere to the same.

- **The Objective**

- (a) Money laundering has now become one of the major concerns of international financial community. Money Laundering is not just an attempt to disguise money derived from illegal activities. Rather, money laundering is involvement in any transaction or series of transactions that seek to conceal or disguise the nature or source of proceeds derived from illegal activities, including drug trafficking, terrorism, organized crime, fraud and many other crimes.
- (b) Know Your Customer (KYC) is the guiding principle behind the Anti-Money Laundering (AML) measures. It incorporates the "Know Your Customer" Standards & "Anti Money Laundering" Measures, hereinafter to be referred as "KYC Standards" and "AML Measures". The objective of is to have in place adequate policies, practices and procedures that promote high ethical and professional standards and prevent Ashika Stock Services Limited from being used, intentionally or unintentionally, by criminal elements
- (c) KYC Standards and AML Measures would enable Ashika Stock Services Limited to know/ understand its customers, the beneficial owners in case of non-individual entities, the principals behind customers who are acting as agents and their financial dealings better which in turn will help the Company to manage its risks prudently.

- **Mandate issued by SEBI**

SEBI has mandated that KYC policy should be designed to combat Money Laundering which covers Customer acceptance policy and customer due diligence measures, including requirements for proper identification of the customers. In view thereof, Ashika Stock Services Limited has framed comprehensive KYC and AML policy.

- (a) No account should be opened in anonymous or fictitious/benami name(s) i.e. to say that anonymous or fictitious/benami customers shall not be accepted.
- (b) No account should be opened or transactions conducted in the name of or on behalf of banned/suspended individuals, organisations, entities, etc. For the purpose, necessary cross checks must be made to ensure that the identity of a customer does not match with any person with known criminal background or with banned/suspended entities. In case of requirement, clarification would be sought from the prospective / registered client.
- (c) No account should be opened if appropriate due diligence measures cannot be applied to a customer for want of verifiable documents on account of non co-operation of the customer or non-reliability of the data/information furnished to ASSL.

- **Customer Identification procedure**

Customer identification for each customer, whether existing, new, regular or occasional is an essential element of an effective customer due diligence programme.

The same includes "profiling of Customer", and solicitation of their "Identification", "Signature", "Address" and "income" documentation.

Clients need to provide documents as required in the account opening document and required under SEBI and PMLA regulations.

Clients need to also provide details of their Income/Net worth in order to ascertain their financial profile.

Clients are expected to update the same frequently and at least on annual basis.
